

Amendments to the Drawings

FIG. 1 has been amended to include an axis of rotation with rotation arrows showing the rotation by at least 180 degrees. It is noted that rotation can be made in clockwise and counter clockwise directions, as shown by the rotation arrows respectively.

Remarks/Arguments

Applicant would like to thank the examiner for the thorough review of the present application. Applicant has amended FIG. 1 to illustrate the path extending along at least 180 degrees, as shown by the arrows. Claim 5 has been rewritten in independent form to include all the limitations of its base claim.

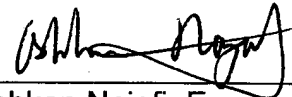

In view of these considerations, it is respectfully submitted that the rejection of the pending claims should be considered as no longer tenable with respect to the above mentioned amendments and drawing modifications. All pending dependent claims necessarily include the recitations of their independent claims and therefore are also in condition for allowance.

Should the examiner consider necessary or desirable to make formal changes anywhere in the specification, claims and/or drawings, then it is respectfully asked that such changes be made by examiner's Amendment, if the examiner feels this would facilitate passage of the case to issuance. Alternatively, should the examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned attorney.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,
Law Office of Ashkan Najafi, P.A.
